Professional Profile

Detail-oriented technical professional with hands-on experience in **data quality, structuring, validation, and analysis** to improve accuracy and usability. Skilled in **data migration, dashboards, and maintaining data integrity** across systems. Fluent in English, experienced in cross-functional and international collaboration, and quick to learn new tools and enterprise systems. Seeking to apply analytical skills as a **Data Quality Assistant**.

Core Skills

Data & Systems: Data organisation, validation, cleansing, migration; Firebase; JSON; dashboards; reporting; data consistency checks
Technical Tools: Firebase, JSON, FlutterFlow, React Native, custom dashboards.
Professional Attributes: Attention to detail, analytical thinking, cross-functional collaboration, rapid adaptation to new tools, process improvement

Professional Experience

Freelance Software Developer (Remote), Spain – *Nov 2025 – Present*

- Structured and maintained Firebase databases, ensuring data quality and consistency
- Performed data cleaning, validation, and cross-checks to remove errors and duplicates
- Developed admin dashboards for monitoring system data and supporting decisions
- Improved backend data organisation and reporting workflows

Software Developer Internship – JG Electrica, Spain – *May 2025 – Nov 2025*

- Assisted in internal tool development using FlutterFlow
- Organised application data and system logic for accuracy and usability
- Collaborated with colleagues to align data structures with business requirements

Kitchen Manager – Cambridgeshire, UK – *Sept 2023 – Mar 2025*

- Managed inventory and supplier records with high accuracy
- Analysed trends to identify redundancies, reduce waste, and optimise processes
- Supervised a small team, enhancing cross-functional collaboration
  (Earlier hospitality roles strengthened attention to detail, reliability, and process consistency.)

Self-Employed – Uber Driver, UK – *2017 – 2023*

- Managed operations, scheduling, and customer interactions independently
- Maintained accurate records of trips, payments, and ratings
- Developed problem-solving skills, attention to detail, and reliability in dynamic environments

Education

- Self-Taught Software Development (2022 – Present) – Focus: Data Structures, Frontend Architecture, UI/UX Design
- High School Diploma

Languages

- Romanian – Native
- English – Fluent
- Spanish – Intermediate
